MT4 GUIDE**

1 How to Download and Install

- From your iPhone device, visit the iTunes store and find the MetaTrader 4 application. To download the application, simply click the "Install" button found in the top right side of your screen.

The application will be automatically downloaded and installed onto your device. If you are trying to download the application from your personal computer, make sure you have your Device connected to the PC using your iPhone cable.

2 Navigating within the platform

Within the Android Trader, there are 5 main sections you will need to familiarize yourself with.

These are:

- Quotes** = List of instruments with their current bid/ask rates.
- Charts** = Shows the price movement of a selected currency pair.
- Trade** = Shows your open positions' details such as profit, balance, equity and free margin.
- History** = Shows your trading and balance history.
- Application Menu** = Allows you do all the necessary actions within the application such as open/close positions and add new trading accounts.

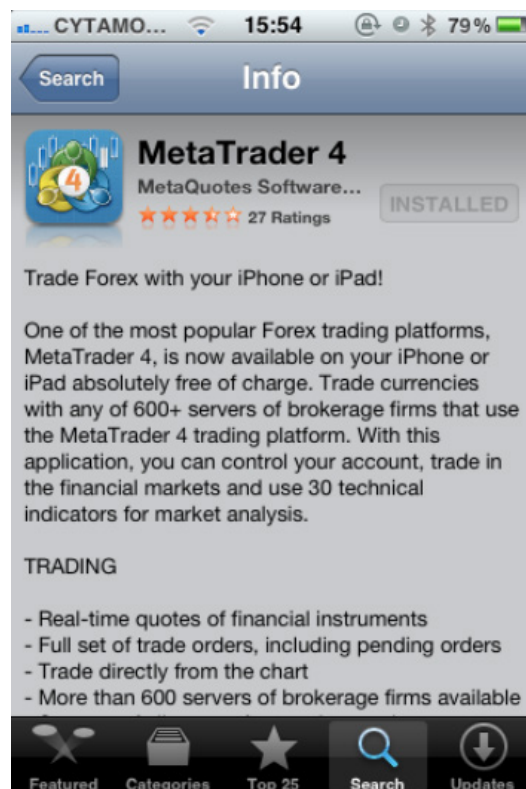

3. Application Menu

- This is the most important menu on the application. It will allow you to open new positions, add new symbols to your quotes section, add or remove trading accounts and modify your application settings. Menu is located on the bottom of the application.

4. Trading Accounts

- To login, add or remove trading accounts simply open the application by clicking on the software icon found on your phone. Visit the account area by selection the "Settings" option on the application menu
